

Update October 2007

Scholarships open to all participants!

In 2008, the year of **UROPI International's** inauguration, RWTH Aachen University will open its scholarship program to all students participating in **UROPI International**. This will allow for qualified students from top US and Canadian universities to benefit from this program regardless of their financial background. So even students from universities currently not co-operating with RWTH Aachen University on a student exchange basis will be able to apply for a scholarship of € 1850,-. RWTH Aachen University will also waive the tuition fee for all students accepted into the program. In 2008, 25 scholarships of € 1850 will be offered to qualified students participating in **UROPI International**. The application deadline for 2008 is January 15, 2007. For details on the procedure, please check www.urop-germany.de.

Database online now!

At www.urop-germany.de, students and administrators can find up-to-date information on research internship offers, FAQ, program outlines etc. RWTH researchers constantly submit new project proposals, so students should make sure to check the website regularly. Students can also enter their own project proposal and RWTH Aachen University will try to match them with a suitable supervisor.

RWTH Aachen University - an excellent choice!

While RWTH Aachen University has always been an excellent choice for students expecting to receive a world-class education in a research-oriented environment, its stand-out status has been officially confirmed on October 19, 2007: the German Science Council and the Deutsche Forschungsgemeinschaft pronounced RWTH Aachen University among the winners of the Excellence Initiative of the federal and state governments. RWTH Aachen University gained recognition for its overall concept for the future "RWTH 2020 - Meeting global challenges" - a decisive step on the path to establishing itself as an elite university with international repercussion. UROP is a key stone within this concept.
